CCI is the exclusive North American importer of Künzle & Tasin sanding machines.

KÜNZLE & TASIN

Since 1946 KUNZLE & TASIN has been building a world wide reputation for quality, reliability and innovation. This success has been achieved thanks to a dynamic approach to the market, extensive technical knowledge along with years of design, experimentation and worksite testing. KUNZLE & TASIN draws upon this experience to continually improve and evolve the company's product offerings. It is this commitment to success in the flooring industry that has allowed KUNZLE & TASIN to consistently produce the worlds most technologically advanced floor sanding machines.

ALL KUNZLE & TASIN SANDING MACHINES COME WITH AN INDUSTRY LEADING 2 YEAR WARRANTY ON MECHANICAL PARTS

Kunzle and Tasin is setting the standard for quality and versatility in sanding machine technology. K&T manufactures to the highest standards, with products available in both the rental and professional markets. These exacting and demanding manufacturing standards paired with over 60 years in business has given K&T the expertise needed to produce sanders with the qualities needed to be successful in both the rental and professional markets.
